Planners Urge Trustees Plant Trees in Park

Recommend Scheme for Permanent Beauty of El Prado Grounds

The planting of Bay fig trees on the western side of Western avenue and on both sides of Redondo boulevard was recommended to the Board of Trustees by the City Planning Commission Monday night. The commission also requested the board to proceed with the proposed planting of black acacia trees in El Prado Park, in accordance with a plan for future beautification of the city's largest open space. The plan contemplates the planting of these trees along the edges of the park. When they have grown to a sufficient size other trees will be removed. The plan also contemplates the construction of walks on the sides and through the park at some future date. The trees to be planted will form a natural arch in time over the walks on each side.

The board is looking into costs of carrying out the recommendations of the commission.

Work Starts On Edison Company Plant in L. B.

Second Addition Will Be Completed by July, Is Promise

Employing 600 men, Llewellyn Iron Works this week began the construction of 2000 tons of structural steel for the second addition to the Southern California Edison Company's Long Beach steam plant.

After a trip of inspection to the new plant yesterday, George C. Ward, vice-president of the company in charge of construction and operation, announced that the new 80,000-horsepower steam turbine for this plant will be in operation by July 1 next, several months sooner than contemplated in the original estimates.

This new addition will increase the capacity of the Long Beach plant to 280,000 horsepower, making it the largest steam plant west of Chicago. Completing the powerhouse building, installing the boilers and the huge turbine and electrical equipment will involve a cost of \$6,000,000.

With the completion of this new unit the Edison Company will have increased the total generating capacity 275,000 horsepower, and its steam generating capacity 220,000 horsepower, since July 1, 1924. The Edison Company's total plant capacity during 1926 will be 50 percent in excess of the expected maximum demand of its load. Power from this new unit will be available for peak loads as well as stand-by service for all territory served by the Edison Company in Southern California and in the San Joaquin Valley territory.

OBITUARY

Adriene Faure, 47, wife of Jules Faure, died Sunday at the Faure home at Pennsylvania avenue and Cherry street. Death terminated several years of ill health.

Funeral services were held Tuesday at the Catholic Church in Wilmington. Interment was made in Wilmington Cemetery.

Studebaker Sedan Prices Reduced

Studebaker has reduced the prices on all sedans, according to an announcement today by P. E. Hennis, dealer for Studebaker in this territory.

Mr. Hennis states that the sedan reductions range from \$100 upward, and the salesrooms at Gardena is open until 9 o'clock every evening during the week, where local motorists may view the new sedans and learn the new prices.

BRIEF NEWS

Torrance High Basket Teams Go Fast Clip

Lightweights and Midgets Win Over Wilmington Quints

Last Week Torrance played its first league game of basketball with Wilmington. The visitors had only three teams, so the local Midgets did not play. Thursday the Fleawrights played at Wilmington. Friday the Lights and Heavies played in Torrance at the American Legion.

It was not a runaway for the Fleas, but they trounced the goosetown team by a score of 16 to 17.

Anyone that missed seeing the Lightweights' game missed the game of their life. The coach wanted to save some of the Lightweights to play in the Heavyweight game, so he started the game with three Midgets and two Lightweights. At the end of the third quarter these fellows had the score of 4 to 10 in Torrance's favor. All of a sudden something went wrong and Wilmington sank four baskets. There were only three minutes to play, so the coach told them to shoot the winning basket.

The Heavies' game was a good one, and, fight as our fellows did, the pompink-ollers or otherwise Wilmington players stood seven points in the lead.

Thursday at the American Hall the Fleas and Midgets play Lomita. Friday the Lights and Heavies play Lomita at Lomita.

Two Local Firms Among Bidders to Sell Hose to City

Bids for 1000 feet of fire hose for the city of Torrance were opened by the Board of Trustees Monday night. Bids ranged from 90 cents to \$1.50 a foot, many grades and varieties being offered. The following firms presented bids: Pioneer Rubber Mills, through the Torrance Hardware Company; the Los Angeles Rubber and Asbestos Works, through the Torrance Plumbing Company; the American Rubber Manufacturing Company; the Pacific Fire Extinguisher Company; the Eureka Fire Hose Manufacturing Company. The awarding of the contract was held over a week at the request of Fire Chief Ben Hannebrink.

Brooks Renamed On Planning Body

Willis M. Brooks was reappointed a member of the City Planning Commission for another year. His term as a representative of the Board of Trustees on the commission ended this month. Mayor Deininger's appointment was unanimously approved by the board.

Gardner Co. Will Give Public Concert At School Friday

The Gardner Music Company is inviting the public to a special concert at the Torrance high school auditorium Friday afternoon, Jan. 22, at 1:30, to hear a demonstration of the Panatrope.

The Panatrope is the latest development of the Brunswick Phonograph Company, and has created a sensation in the world of music-reproducing instruments. It was first introduced about three months ago and is said to have achieved a degree of perfection heretofore undreamed-of by reproducing instruments.

The Gardner Music Company promises a very interesting program of instrumental and vocal music, to which the general public is invited. There is no admission charge.

Guests Sunday of Mr. and Mrs. W. W. Woodington of Arlington avenue were Mrs. E. P. Reardon of Long Beach and Mr. and Mrs. A. W. Woodington of Los Angeles.
